

# Export opportunities? Things are looking up.

As the U.S.'s largest trading partner and a NAFTA member, Canada offers endless business possibilities. UPS can help you turn these possibilities into profits. As a global leader in logistics, one of the world's largest customs brokers, and with more than 40 years of experience in Canada, we've got you covered coast to coast. We know the ins and outs of Canadian imports and exports. And we have more small package delivery options to Canada than any other carrier — now even faster to select locations — as well as proven trade management and technologies, and the capabilities to take you from the biggest cities to the farthest territories.

## Serving Canada's growing industries

Aerospace	Healthcare
Automotive	High Tech
E-commerce	Manufacturing

*From figuring it out to getting it done, we can get your business pointed in the right direction — north to Canada.*
